About Elica Health Centers

As a community health center, Elica Health Centers wants to be your home for all your healthcare needs.

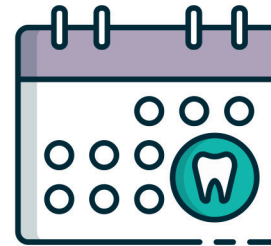

We provide access to primary care medical, behavioral health, dental, and pharmacy services for patients of all ages, races, cultures, and ethnic groups, regardless of an individual's ability to pay.

At Elica, you can have your medical, behavioral health and dental services all in one convenient location. Our providers work together to provide you with your best care.

Dental Care & Your Health

Did you know medical and dental health are related? Bacteria and inflammation in the mouth can lead to heart disease, diabetes, Alzheimer's disease, low birth weight, cancer and more.

Everyone should see a dentist at least twice each year. Regular dental visits at Elica allows your dentist to find problems early and keep you healthy.

You do not need a referral to access Elica Dental Services. Schedule an appointment today!

A Zero-Anxiety Experience with Elica

All of our dental clinics use the Solea Laser to replace the dental drill for most dental procedures.

- Less noise
- No drill, needles, or numbness
- No bleeding and no sutures
- Less after-visit discomfort
- Quick healing
- Faster appointments
- Fewer trips to the dentist

“I would recommend anybody that needs dental work done to go to a dentist that uses the Solea Laser. It was so quick and easy!”
