

Elica Health Centers Sliding Fee Discount Program

At Elica Health Centers, we offer a Sliding Fee Discount to make our services more affordable to all patients.

- If you already participate in Social Security Disability income (SSDI), Temporary Assistance for Needy Families (TANF), or any other public assistance programs, you may be eligible for the Sliding Fee Scale Program.

The following criteria apply to the sliding fee scale, which is based on the current Federal Poverty Guidelines (FPG):

- You must complete the application on the reverse and re-apply in six months, or when your household or income changes, whichever comes first.
- You are required to provide proof of income as instructed on the application. Self-declaration of income will qualify the patient for one visit only, but can be changed within ten days of visit.
- If eligible to enroll in Medi-Cal, please ask us for more information. We would be happy to provide resources such as:
 - Evaluation if you are eligible for full scope Medi-Cal
 - Assistance with filing the MC-13 PRUCOL form
 - Provide Department of Human Assistance location contact information or help schedule a visit with Sacramento Covered
 - Provide information and estimate income limits for Medi-Cal or other programs.
 - Provide information and help find information about programs (e.g., for oncology, diabetes) if the patient is not eligible for any insurance.
- Approval is based on household size and gross income.
- Participants are expected to pay their share of the discounted fee at the time of service.
- Patients can also arrange to make regular payments until the balance is paid.
- A charge for today's services will reflect the sliding fee scale below. If you qualify on the sliding fee scale, this will be your nominal fee and no other charges will be billed.
- Sources of acceptable payments are:
 1. Cash
 2. Credit Cards (VISA, MasterCard). Checks are not acceptable.

If you have questions, please contact a staff member from one of EHC locations, or call at (916) 454-2345.
